### **OVERVIEW**

Individuals may send a referral for Home Help services by phone, mail, fax, or in person and referrals must be entered on the Michigan Adult Integrated Management System (MiAIMS) upon receipt. The referral source does not have to be the individual in need of the services.

# Referral Registration

The taking of a referral for the Home Help program involves four steps:

- Enter known information about the client into the Quick or Advanced Search in MiAIMS. The client search will provide one of three results:
  - No matching record found.
  - One result. One result will open the case in a 360 screen.
  - More than one result. More than one result lists possible matches to the client.

In all three search results, add a new referral by clicking the *Add New Client/Add Referral* button under the *Client Action* section on MiAIMS.

- 2. Enter basic client information and demographics in the *Client Information* tab in MiAIMS.
- 3. Complete the *Referral Information* in MiAIMS by entering the referral date and time, source, and basic need for services.

**Note:** If the referral date or time in MiAIMS is not the actual receipt of the referral, the date and time must be adjusted in MiAIMS.

4. Complete a Bridges search for eligibility, correct Medicaid, and appropriate program enrollment type (PET) code or benefit plan (BP). Upon saving a referral in MiAIMS a log referral ID number is generated.

# Case Assignment and Disposition

The supervisor or their designee assigns the pending referral to the adult services worker (ASW) using the *Assign Worker* button under the *Case Action* section in MiAIMS.

### **Documentation**

The ASW must print the introduction letter, the DHS-390, Adult Services Application, and the DHS-54A, Medical Needs form located in the *Forms* module and mail to the client. The introduction letter allows the client 21-calendar days to return the documentation to the local office.

**Note:** The introduction letter does **not** serve as adequate notification if Home Help services are denied. The ASW must send the client a DHS-1212A, Adequate Negative Action Notice; see ASM 150, Notification of Eligibility Determination.

## Standard of Promptness (SOP)

The ASW must determine eligibility within the 45-day standard of promptness, which begins the day after the referral is received and entered on MiAIMS. The referral date entered on MiAIMS must be the date the referral was received in the local office. The computer system calculates 45 days beginning the day after the referral date and counting 45-calendar days. If the due date falls on a weekend or holiday, the due date is the next business day.

When a signed DHS-390 serves as the initial request for services, the referral date must be the date the application was received in the local office.

**Note:** A DHS-54A, Medical Needs form does not serve as an application for services. If the local office receives a DHS-54A as the initial request for services, a referral must be entered on MiAIMS for the date the form was received in the local office and an application mailed or given to the individual requesting services.

After receiving the assigned referral, the ASW gathers information through an assessment, contacts, etc. and decides to approve or deny the referral; see ASM 115, Adult Services Requirements.
